# Evoluzione della domanda farmaceutica

Spesa Farmaceutica totale Regione Veneto  
Anno 2017 1,5 ML €

Fonte : D.ssa Rampazzo - Convegno Quali innovazioni nella logistica sanitaria 15/10/2018 – USSL 3 Serenissima

# Quali ricadute sulla logistica del farmaco ?

- Incremento del costo singola confezione
- Parcellizzazione dei pazienti
- Incremento Distribuzione Diretta Ospedaliera farmaci H
- Incremento acquisti di farmaci per singolo paziente e personalizzazione della logistica
- Recupero farmaco prima scadenza a causa alto costo

Maggiore complessità della gestione logistica

# Logistics problems in hospitals

## LOGIMED 2018- Amsterdam

- No standardization in logistic processes
- No collaboration in logistics between hospitals
- Logistics is not in a strategic position
- Everyone in the logistic process can decide what they want
- Problem of entrance control due to the different points of access
- Interest on logistics just for save money
- No professional infrastructures
- Lack of warehouse software and technology devices

# What hospitals can do .....

## LOGIMED 2018- Amsterdam

- Bring Logistics to the board room
- Make problems visible and report them
- Network with other hospitals and share experiences
- Do not try to solve the problems on your own in the long term

# What suppliers can do .....

## LOGIMED 2018- Amsterdam

- Support hospitals in the logistic organization with good data and best practices
- Create logistic hubs in order to reduce the interfaces
- Organise logistic forum with hospitals on a national level
